

Code	Procedure
5012	Transcatheter placement of an intracoronary stent, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel
5013	Transcatheter placement of intracoronary stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel
5016	Transcatheter placement of a drug eluting stent, percutaneous with or without other therapeutic intervention, with or without angiography, any method, single vessel
5017	Transcatheter placement of drug eluting stents, percutaneous with or without other therapeutic intervention, with or without angiography, any method, single vessel
5055	Aortic endarterectomy
5063	Removal of single or dual chamber pacing cardioverter defibrillator electrode(s); by transvenous extraction
5069	Insertion of automatic implantable cardioverter/defibrillator
5071	Insertion or replacement of permanent pacemaker with transvenous electrode(s); single chamber
5072	Insertion or replacement of permanent pacemaker with transvenous electrode(s); dual chamber
5073	Insertion or replacement of pacemaker pulse generator only single chamber
5074	Insertion or replacement of pacemaker pulse generator only; dual chamber
5075	Blalock operation
5076	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); single chamber
5077	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); dual chamber
5101	Coronary angioplasty, single or multiple vessel(s), with or without angiography with or without pacing
5103	Transcatheter placement of an intracoronary stent, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel
5111	Transcatheter placement of intracoronary stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel
5115	Percutaneous transcatheter closure of congenital interatrial communication (i.e. Fontan fenestration, atrial septal defect) with implant, including right heart catheterisation
5116	Transcatheter placement of a drug eluting stent, percutaneous with or without other therapeutic intervention, with or without angiography, any method, single vessel
5117	Transcatheter placement of drug eluting stents, percutaneous with or without other therapeutic intervention, with or without angiography, any method, single vessel
5125	Ascending aorta graft, with cardiopulmonary bypass, with or without valve suspension; with aortic root replacement using composite prosthesis (artificial valve) and coronary reconstruction
5126	Transverse arch graft, with cardiopulmonary bypass
5127	Descending thoracic aorta graft, with or without bypass
5128	Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass
5143	Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass
5144	Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass
5146	Ascending aorta graft, with cardiopulmonary bypass, with or without valve suspension
5147	Ascending aorta graft, with cardiopulmonary bypass, with or without valve suspension; with coronary reconstruction
5156	Coronary Artery bypass graft, vein only , one or more coronary venous grafts

Code	Procedure
5157	Coronary Artery bypass grafts using venous graft(s) and a single arterial graft
5158	Coronary Artery bypass grafts using venous graft(s) and arterial grafts
5166	Revision Coronary Artery bypass graft, vein only , one or more coronary venous grafts
5167	Revision Coronary Artery bypass grafts using venous graft(s) and a single arterial graft
5168	Revision Coronary Artery bypass grafts using venous graft(s) and arterial grafts
5501	Comprehensive electrophysiologic evaluation with right atrial pacing and recording, right ventricular pacing and recording, HIS bundle recording, including insertion and repositioning of multiple electrode catheters.
5502	Comprehensive electrophysiologic evaluation with right atrial pacing and recording, right ventricular pacing and recording, HIS bundle recording, including insertion and repositioning of multiple electrode catheters.
5801	Exploration of mediastinum
5802	Endoscopic extirpation of lesion of mediastinum
5803	Diagnostic endoscopic examination of mediastinum with or without bronchoscopy
5809	Correction of tetralogy of fallot
5811	Atrial inversion for transposition of great vessels
5812	Other correction of transposition of great vessels
5813	Correction of total anomalous pulmonary venous connection
5814	Closure of defect of atrioventricular septum using dual prosthetic patches
5816	Closure of defect of interatrial septum
5817	Closure of defect of interventricular septum
5818	Planned repair of post infarction ventricular septal defect
5819	Emergency repair of post infarction ventricular septal defect
5821	Other open operations on the septum of the heart
5824	Refashioning of atrium (Ebstein's)
5826	Operations on wall of atrium
5829	Replacement of mitral valve (includes valvuloplasty)
5831	Plastic repair of mitral valve
5832	Replacement of aortic valve (includes valvuloplasty)
5833	Replacement of tricuspid valve (includes valvuloplasty)
5839	Double valves
5842	Triple valves
5855	Annuloplasty
5870	Myocardial aneurysmyotomy
5871	Open correction of patent ductus arteriosus
5872	Excision of pericardium

Code	Procedure
5882	Closed correction of patent ductus arteriosus
5893	Open operations on pulmonary artery
5957	Revision repair of coarctation of aorta
5958	Revision closure of defect of intra-ventricular septum
5959	Revision of valve surgery
5960	Intracardiac catheter ablation of atrioventricular node function, atrioventricular conduction for creation of complete heart block, with or without temporary pacemaker placement.
5961	Intracardiac catheter ablation of arrhythmogenic focus for treatment of supraventricular or ventricular tachycardia by ablation of fast or slow atrio-ventricular pathways, accessory atrioventricular connections or other atrial foci, singly or in combination.
6680	Angiogram (selective catheter, single or multiple vessel study, celiac, mesenteric, renal, subclavian) includes introduction of needles or catheter injection of contrast media and necessary pre and post injection care specifically related to the injection procedure
